

PRIME MINISTER • PREMIER MINISTRE

Message from the Prime Minister of Canada

It is with great pleasure that I welcome you to the Forum Afrique Expansion 2019.

Since its first edition in 2003, the Forum Afrique Expansion has been bringing together elected officials, the private sector, international organizations, and civil society under one roof.

This event provides its participants with a platform to discuss the future of trade and the economy. I am confident that our positive and productive conversations will lead to better outcomes and closer partnerships between African and Canadian industry professionals.

I would like to thank the organizers for making this event possible, and all in attendance for participating. Please accept my warmest welcome and best wishes for a memorable Forum!
